An aerial photograph of a large farm complex, likely Mains Farm, situated in a wooded area. The farm features several large, light-colored buildings, possibly barns or processing facilities, arranged in a line. A large, irregularly shaped pond or lake is visible in the upper left portion of the image. The surrounding landscape is heavily forested with dense evergreen trees. The overall scene is captured in a sepia-toned, vintage style.

Welcome to Mains Farm

SHORTHORN SALE

It is with great pleasure that we invite you to be with us here at the farm on October 10 and 11. We are presenting

some excellent sons and daughters of Bapton Toreador and Louada Provost for your selection. In addition, we have searched the country to find animals of comparable quality and breeding. We believe we have been successful in this regard.

Look at the sires of these sale animals. There are none finer in the business.

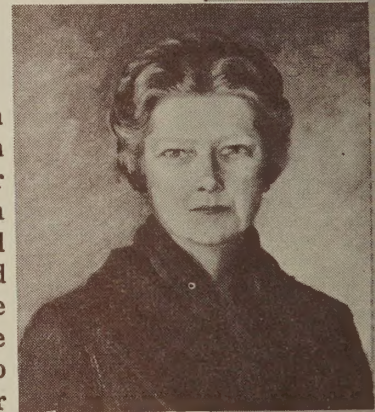

We here at the farm will do everything possible to make your stay a pleasant one. Enjoy the scenery, the many attractions of the Pacific Northwest, and above all, enjoy some very fine cattle. I am looking forward to seeing you in October.

Sincerely,

James A. Brennen

Dear Friends:

I extend to you a very warm invitation to the Mains Farm on Saturday, October 11 for our bi-annual Shorthorn sale. My son and I have tried hard to produce the good Shorthorns that really live up to the reputation of "The Great Improvers." I hope to have the pleasure of your company on Friday evening, October 10, for a social party at the farm at 5:30 p.m.

Agnes H. C. Brennen

QUALITY and GOOD BREEDING

Quality and good breeding go hand in hand at Mains Farm. The Brennens have long been believers in buying and breeding only the best and today's herd shows their wisdom.

The original Mains herd was founded in 1952 by Mr. and Mrs. James J. Brennen. Subsequent purchases came from Millhills, Femco, Bapton, Louada and many of the breed's leading herds in the United States, Canada and Scotland.

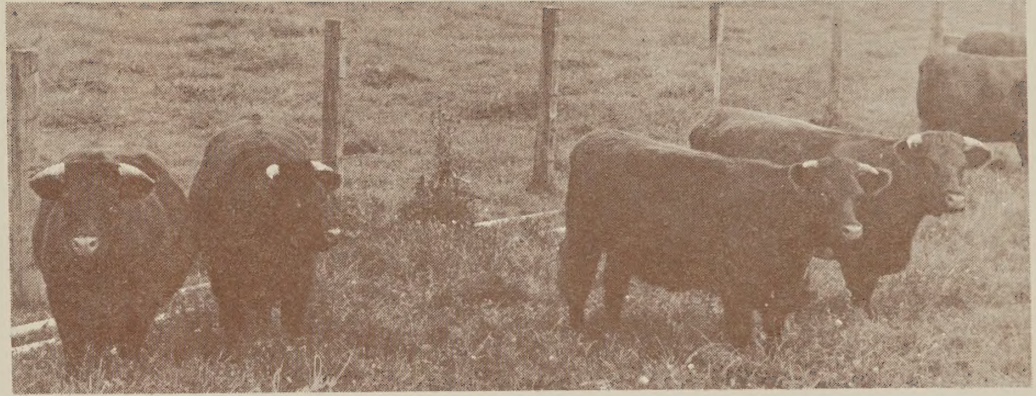

The death of Mrs. Brennen's mother in Scotland in 1960 forced their return to that country for what they thought would be many years. Accordingly, the herd was dispersed at the year's top average. Affairs were taken care of in Scotland sooner than expected and the family returned to the Pacific Northwest in December of 1961 to found the present Mains Farm.

Mr. Brennen's plans were cut short by his tragic motor accident in 1963, but the herd has grown and prospered under the direction of Mrs. Brennen and their son, Jim, who is currently a director of the American Shorthorn Ass'n and a leader in state and national Shorthorn affairs.

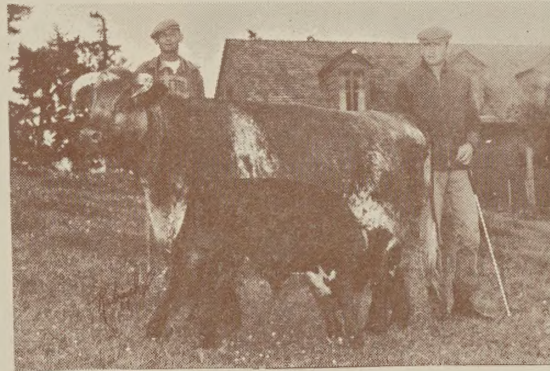

Today the herd is one of the breed's most select. The small size of the farm demands that it be sharply reduced every two years. The successful sale in 1967 was a tribute to the Brennens and their breeding program. This year's offering is even stronger. The program is two years further along and improvement has been made daily. This sale amounts to a herd reduction and accordingly stock bulls and real foundation cows are catalogued. You'll like what you see, and the generous delivery offer removes any question about high shipping costs.

Few more beautiful places exist anywhere than Mains Farm on the shores of Puget Sound. Take as much time as possible to spend in this breath-taking spot. The people are grand and the cattle offer strong opportunities.

Mrs. James Brennen and herdsman Sandy Mackie are shown here in the trophy room at Mains Farm which is lined with many of the awards won throughout the West Coast.

Mains Shows the Way In the West!

In show after show from Vancouver to San Francisco, Mains Farm has always met and bested the competition. Pictured here are just a few of the recent winners. They include All-Americans, champions that sell and most important — proof that the progeny of the Mains stock bulls meet the requirements of today's beef cattle industry. Several of the Mains show winners sell on October 11. Others are now at work for satisfied customers throughout the country.

Mains Eliza 3rd was grand champion female at the 1968 Pacific International, Portland. She is a full-sister to Mains Encore, Lot 6.

Best ten head at the 1967 Cow Palace Exposition in San Francisco were these sons and daughters of Bapton Toreador shown by Mains Farm.

Bapton Toreador wrote breed history in the West when two-thirds interest sold at \$10,000 in the 1967 Mains sale. A number of sons and daughters sell this year.

Look at These from the 1967 Mains Sale!

The first Mains Sale in December of 1967 was an unqualified success. Sparked by the senior stock bull, Bapton Toreador, at \$10,000 for a two-thirds interest, the sale disseminated superior seed stock throughout the country. Some of the cattle that sold that day are pictured on these pages. They went to practical cattlemen and have made a great success. Others later went on to prominent showing honors. Which of the Mains offering will you choose on October 11?

Left — Mains Emigrant by Bapton Toreador sold in the 1967 sale for \$2,000 for 2/3 interest to Charles Augustine, and Lorraine Augustine, Lake City, Minn.

Right — Mains Royal Banner sold at \$2,800 in the 1967 sale to Charles and Lorraine Augustine, Lake City, Minn., and went on to be reserve grand champion of the 1968 Minnesota State Fair.

BAPTON TOREADOR — Bapton Toreador made history when two-thirds interest sold in the 1967 Mains Sale to the Royal Tartan Herd, Lockport, Ill., at \$10,000. But he had already achieved a great reputation. He was purchased for Mains at the top of the 1964 Canadian International Bull Sale, having been imported from the famed Bapton Herd in Scotland. His sire is Bapton Brave Robin, perhaps the best bull of his year at Perth. He had been purchased by Denend Pedigree Farm at Perth in 1960 for 4,800 gns. with half interest retained by Bapton. Toreador has sired most of the Mains champions and top sellers in the last four years including the grand champion female, reserve grand champion bull, senior get-of-sire, best six head and others at the 1968 Pacific International. After the 1967 sale, Toreador remained in service at Mains Farm artificially and his get and service feature this sale.

MAINS CLOUDBURST — Of all imported breeding, this massive bull has written history in the Pacific Northwest. His sire is Bapton Cavalier that was top-selling bull at Perth when he was imported by Mains Farm in 1958. His dam is the beautiful Millhills Queen 14th, a member of one of the late Duncan Stewart's favorite families. She was by the powerful Banchory Jason. Cloudburst was a big bull that was used successfully by our good friends at Lakeview Ranch, Odessa, Wash., where he left some wonderful cattle. They have all the smoothness and thickness that is so much in demand today together with very sound feet and legs. You'll like the daughters of Mains Cloudburst that are selling.

This is how Louada Provost, Lot 1, looks on pasture at Mains Farm today.

LOUADA PROVOST — He was top-selling Shorthorn bull in North America in 1966 when he was purchased for Mains. He has fulfilled his purpose here, and we will continue to use him artifiically. **A two-thirds interest and possession sells.** Provost's full brother topped the 1967 Louada sale selling at \$7,500 to Harold Frey, Oxbow, Sask., and later went on to be the reserve junior champion at the International Livestock Show in Chicago. His dam sold for \$5,000 to A. R. Cross, Calgary, Alta., in the Louada All Female sale. See his many sons and daughters selling.

MAINS PIPE MAJOR, Lot 2.

MAINS PIPE MAJOR — He's one of the best sons of Bapton Toreador from a grand breeding family of cows, the Millhills Paulines. His mother is perhaps the best cow in the herd. She was grand champion female at the Cow Palace in 1961. His granddam, the old Millhills Pauline, has bred very well at Mains. Two daughters, one granddaughter and one grandson of the old cow have been champions at the Cow Palace. Pipe Major is a full brother to Mains Pibroch that sold in our last sale to Kay Haley, Ventura, Calif., where he is breeding very well. His mother has a bull calf again this year by Louada Provost that shows a lot of promise. We have used Pipe Major on some of our best cows and a number of the sale females are bred to him. Mains Farm retains one-third interest.

MAINS ROYAL FLUSH — He is truly the kind they are looking for today, with elevation and plenty of muscle in the right places. His dam was purchased in a Louada sale and is a member of the great bull-producing family, the Blood Royals. She is the dam of Louada Ironclad that sold for \$3,800 to George Shaw, Pleasant Acres, Trimble, Mo., in the 1967 Louada sale. She is a full sister to the dam of Louada Peerless, AAA, stock bull for John Shuman, Byers, Colo.

From left are Mains Observer, Lot 10; Mains Royal Flush, Lot 14, and Mains Jupiter, Lot 11. All of the Mains bulls have been lot fed in groups outdoors. They are hardened out and ready to go to work immediately after the sale.

From left are Mains Eager Billy, Lot 15, and Mains Forward Thrust, Lot 9.

MAINS EAGER BILLY — He is the first son of Scotsdale Arrogant, top-selling Shorthorn bull in North America in 1968 at \$10,100. He has always been an eager, vigorous calf. He has been lot fed with nine other bulls with a year's difference in age. He knows how to take care of himself. His dam was purchased from the well-known Billy Anderson herd in Iowa and is by Louada Rothes Prince, full brother to Louada Rothes King. The first sons of Scotsdale Arrogant to be shown by Anderson won two championships and both get-of-sire awards at the 1968 Iowa State Fair.

STANDARD GUARANTEE

Recommended by American Shorthorn Association

- A. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age, shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
- D. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser

at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
